City Council Meets.

A considerable part of the regular semimonthly meeting of the city council last evening was taken up with discussion over a communication from the board of police commissioners asking the indersement of council for a scheme for the reorganization of the police force. The plan presented by e board was as follows: First-That we relieve Capt. Webster of the duties as chief of the police depart-

ment, and, in view of his long, faithful and active service, that we make him stationmaster, with day duty, as long as he is capble of attending to the Second-That we request the city council to take the proper steps to have the city charter amended by the state legislature in so far as it pertains to our police department, so as to do away with the office of lieutenant and so as to provide for the appointment of three sergeants from the force, their length of service as such to be discretionary with the board of police commis-

Third-That we request the city council to make an addition of one to the number of men on the force, in order to enable us to make the change and reorganization pos-

If this plan meets with approvel the If this plan meets with your approval the police force will consist, in all, of eighteen men, with the captain, two men detailed for stationkeepers and three detailed as sergeants. This will leave twelve patrolme four for day and eight for night duty. This, with the sergeant, who will be required to patrol constantly during his street duty, will give five men during the day and nine men during the night.

The station tricks can be arranged by cer-

tain tricks being provided for the sergeants and the captain.

Matter Discussed.

A motion by Capt. Bryan to refer the matter to a special committee composed of a member from each board and the presidents of the two boards started a discussion as to the function of the regular committee on police. In moving to refer the communication to the latter commit-tee Mr. Marshall protested vigorously against what he considered a tenden-cy on the part of the chair and others to disparage the committee on cy on the part of the chair and others to disparage the committee on police. In this he was warmly joined by Mr. Spinks, who finally asked the chair to relieve him from his connection with that committee. In the debate Mr. Williams took exceptions to a reference from the chair affecting the committee on claims, the member stating that he would not permit any such allusions to go unanswered. mit any such allusions to go unanswered. After being prolonged for some time the discussion finally ended by the adoption of a resolution referring the matter to a com-mittee composed of the committees on finance and police and the presidents of the common council and the board of alder-

Annual Reports.

The annual reports of the city auditor and treasurer were received, showing receipts for the fiscal year ending May 31, 1905, of \$132,895.49 and expenditures of \$123,972.46, leaving a balance of \$8,923.03. Chairman Bryan of the finance committee made a statement showing that the financial affairs of the city had been wisely handled in the past few years. In the fis-cal year just ended, he said, the estimates had been exceeded by the expenditures by only about \$2,000, while the receipts had largely exceeded the estimates. He made a review of the city finances for several years past, showing that the public debt since 1880 had been reduced from \$1,051,600 to \$820,000, including the \$50,000 bond issue of Gertrude Edwards, nineteen years, 225 1902. The last appropriation bill, he said, provides for the expenditure of \$37,600 for street improvements—double the amount of the bill of 1880 for public schools, and \$2,300 more for the police department. He said that council had been as liberal as the means would permit in dealing with the public schools. In closing his statement Capt. Bryan declared that while the comparison was justified it was not his intention to reflect upon former members of

Electric Light Plant.

On the question of disposing of the city electric light plant and franchise, Mr. Spinks urged that the matter be submitted to a vote of the people, but the ordinance was passed as amended by a vote of 12 to 2. In its present form the ordinance provides that each bidder shall inclose a certified check for \$500 with his bid. The ordinance is so drawn that council reserves the right to reject all bids, should it be deemed advisable to do so.

visable to do so.

The annual report of the clerk of gas was presented by Mr. Uhler of the committee on light. A total profit of about \$15,000 for the year was shown, allowing for a deduction of \$5,400 for gas used by the city. Council adjourned after disposing of several other matters.

A Sale of Trunks One-Quarter to One-third Off.

HE time has gone by when a journey was an event in the family life. Now almost every one travels more or less. It may be a trip of a few days or it may extend over a year. In either case, a good trunk is necessary-one that will withstand the rough handling to which it will be subjected. We have just purchased, at a decisive price concession, direct from a leading manufacturer, a lot of high-grade trunks, which we shall put on sale tomorrow, Thursday, at a quarter to a third less than the regular prices. An opportunity is thus afforded to purchase a stanch, thoroughly constructed and strictly high-class trunk for the price usually asked for the ordinary sort.
